Applications

Meals for Me — *Project Lead*

Mobile responsive recipe finder app that finds recipes according to the ingredients built by using ***ReactJS*** *and* ***PHP***.

- Coordinate with team members using **GitHub** and **Git**.
- Used **HTML** to create the basic skeleton of the application.
- Utilized **Materialize CSS** to apply responsiveness and style to the application.
- As a lead developer, utilized **ReactJS** to map through the backend database to search for the user input.
- Used **Redux** to update state on ingredient search and made **Axios** calls to our database to get info on the specific recipe.
- Utilized **PHP** and **MySQL** to build our own recipe database.
- Created sign-up and login system using the **PHP** and **MySQL**.

Checkers — *Front-End Developer*

2-player checkers game created using mainly ***JavaScript*** *and* ***jQuery***.

- Incorporated **Agile** and **meistertask** to work effectively with the team within 48 hours deadline.
- Used **HTML** and **CSS** to build the basic skeleton and style the application.
- Incorporated **Bootstrap** grid to make the application responsive.
- Utilized **JavaScript** to dynamically build the checkerboard and update the checkerboard within **JavaScript** when the user moves the checker pieces.
- Used **jQuery** to effectively select/append elements from **JavaScript** on to the DOM.

MBoutique

A mock up Ecommerce macaron website with store information using ***ReactJS***.

- Incorporated **HTML** and **CSS** to build the basic layout of the pages.
- Used components in **ReactJS** to build and route through the website.
- Utilized **Flexbox** to appropriately position the elements.

Professional

Mikstup, Online cosmetic store   2018

Worked with Shopify template using ***HTML, Bootstrap***, *and* ***JavaScript*** *to improve* ***UI & UX***.

- Collaborated with other developers to create cleaner **interfaces**, experiences, and interactions.
- Primarily responsible for the logo and the landing page navigation bar of the website.

Lekos - *Human Resources Coordinator*   2015-2018

- **Promoted** to human resources coordinator after starting as a customer service rep
